Minutes ~ **Draft**

1. Call to Order

Chairman Paul Harvey called the meeting to order at 10:30am

2. Approval of the May 9, 2013 Meeting Minutes

Upon the motion of Don DeBerry, seconded by Richard Metz, the meeting minutes from May 9, 2013 were approved and carried without objection.

3. Consideration and Recommendation of the Updated Functional Classification

Bob White presented the Committee the suggested changes. He reiterated that the FHA requires that the functional classification be reviewed and updated. It was mentioned that the Lynchburg District VDOT office has reviewed suggestions from the localities and supports the recommended changes. Also, it was noted that with the recommended changes they would reduce the budget impact significantly.

A motion was made by Don DeBerry in support of recommending the changes to the CVMPO for approval, seconded by Richard Metz, the motion was approved and carried without objection.

4. Presentation of the Proposed Multimodal System Design Guidelines

Amy Inman gave a presentation to on the proposed multimodal system design guidelines recently developed by the VDRPT for corridor design. Amy included in her presentation various aspects of the guidelines, including, why does VDRPT have these design guidelines, how they link to other state plans, how the guidelines were developed. Additionally, she detailed the guidelines contents, its focus areas, value of the guidelines, and next steps and implantation strategies. Lastly, it was mentioned that the guidelines can be used in combination with VDOT to strengthen the design process.

5. Matters from the Committee

Rick Youngblood mentioned that Chris Winstead is the new Lynchburg District VDOT district manager.

6. Adjournment

| A motion was made by Richard Metz to adjourn, seconded by Johnnie Roark, and without objection Chairman Harvey adjourned the meeting at 11:20 a.m. | | | |

STATEMENT OF PURPOSE Approved September 5, 2002

The Central Virginia Transportation Technical Committee (Committee) is responsible for supporting the Central Virginia Metropolitan Planning Organization's (CVMPO) and Region 2000 Regional Commission's transportation policy decision-making efforts.

The Committee provides technical advice in coordinating the federally-mandated "3-C" or continuing, comprehensive, and cooperative, transportation planning and programming process.

The Committee's three principal work efforts are updating the long range transportation plan, updating the transportation improvement program (TIP), and developing the annual unified planning work program. The Committee, in conjunction with its rural colleagues, also develops the annual Rural Transportation Planning Assistance Program Scope of Work. The Committee's intent is to review and comment on TIP projects and work program products.

The Committee acknowledges that the long range transportation plan update is the primary planning document for transportation issues in the Central Virginia region. This planning initiative drives the formulation of the transportation improvement program, as well as the annual work programs.

The Committee further realizes that the long range transportation planning process must identify regional priorities in order to fully influence project funding decisions ultimately exercised by the Commonwealth Transportation Board. The Committee's intent is to recommend priorities and encourage the CVMPO to set these priorities at the regional level.

Because of its importance, the Committee is fully committed to actively being involved in the long range transportation planning process.

In carrying out its responsibilities, the Committee will:

- 1. Coordinate with local planning departments to ensure an understanding of pertinent local development issues and their impact on the region;
- 2. Coordinate with nearby MPOs and develop an ongoing dialogue with them;
- 3. Strive to integrate land use and economic development, as well as transportation considerations, in its planning process;
- 4. Strive to be proactive as opposed to reactive in problem solving.
