## **DOCUMENT DESCRIPTION**

### **What is the Transportation Improvement Program?**

The Region 2000 Metropolitan Planning Organization (MPO) Transportation Improvement Program (TIP) is a listing of transportation projects over a three year period, which will be funded, at least in part, with funds from the Federal Highway Administration and/or Federal Transit Administration.

The current TIP covers the years 2012 through 2015 and lists the estimated cost for each phase of all projects. Project schedules often change as a result of personnel or consultant availability for design activities, or changes in budget resource availability. Thus, the TIP does not always yield an up-to-date picture of actual project expenditures. To ensure that the public will have an accurate understanding of how federal funds are actually being spent on transportation projects, Congress included in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA- LU) legislation of 2005, a requirement that the organizations responsible for approving the Transportation Improvement Program publish an annual listing of project obligations.

### **What are "project obligations"?**

A good way to think of "obligations" is setting up a checking account for a specific purpose and then making an initial deposit. In order to begin work on any phase of a transportation project, federal funds must be obligated. This means that the money is set aside for that particular piece of work, and then can be used to pay bills. The project expenses may be bills from a design consultant, a construction contractor, or payroll costs for Virginia Department of Transportation (VDOT) employees working on the project.

### **Do project obligations mean the work is underway?**

This is not always the case. Project accounts are set up, particularly for the initial phases of a project, to enable the work. It may take a while, for example, to select and hire a design consultant and then actually begin work.

### **Contents of this document:**

This document contains tables of VDOT project funding information organized by jurisdiction then by funding category (i.e. Interstate, Primary, Secondary and Urban) as well as Virginia Department of Rail and Public Transportation (VDRPT) funding information.

### **Acronyms**

BROS - Bridge Off-System

CMAQ - Congestion Mitigation and Air Quality Program

DEMO - Demonstration

FHWA - Federal Highway Administration

FTA - Federal Transit Administration

IM/NH - Interstate Maintenance/National Highway System

RSTP - Regional Surface Transportation Program

STP - Surface Transportation Program

SSTP - Statewide Surface Transportation Program
