

CENTRAL VIRGINIA LONG-RANGE TRANSPORTATION PLAN – YEAR 2035

E. SUMMARY OF PUBLIC PROCESS

APPENDIX

OCTOBER 2010

September 10, 2009

On behalf of the Central Virginia Metropolitan Planning Organization (CVMPO), I am pleased to invite you to participate in the Campbell County Focus Group for the development of the CVMPO region's Long-Range Transportation Plan 2035 Update.

Through a scenario planning/community visioning process, you and fellow group members will help shape a comprehensive vision for the region, which will include the transportation investment strategies needed to attain that vision. This process will also help build a collective understanding about the relationships between community design, regional growth patterns, and transportation investments. Moreover, we hope that this process will raise the level of awareness about the choices and opportunities involved in planning for the future, to generate excitement and commitment to realistic goals for positive growth, and to establish new partnerships that will grow stronger over time.

In order to ensure that we understand and address the full spectrum of issues that should be considered throughout our planning process, we are reaching out to you, as well as other individuals who represent a wide variety of viewpoints. Your participation in this group would require attendance at one Focus Group Session to be held on **October 5, 1-3pm in the Haberer Building at 47 Rails End Lane** with the hopes that you would also attend the three subsequent Public Workshops (first to be held in late fall, 2009). At this Focus Group Session, you will learn about the study process and have an opportunity to provide the project team with information and insights about relevant community issues, goals, and values.

Thank you very much for considering becoming a member of our Campbell County Focus Group. For logistics purposes, we appreciate you RSVP by Monday, September 28th to Marjorie Gilley by either email (mgilley@region2000.org) or phone (434.845.5678 x 210). In the meantime, should you have any questions, please feel free to contact me at 434-845-3491.

Sincerely,

Robert E. White, Deputy Director
Virginia's Region 2000 Local Government Council

Marjorie Gilley

September 10, 2009

On behalf of the Central Virginia Metropolitan Planning Organization (CVMPO), I am pleased to invite you to participate in the Bedford Focus Group for the development of the CVMPO region's Long-Range Transportation Plan 2035 Update.

Through a scenario planning/community visioning process, you and fellow group members will help shape a comprehensive vision for the region, which will include the transportation investment strategies needed to attain that vision. This process will also help build a collective understanding about the relationships between community design, regional growth patterns, and transportation investments. Moreover, we hope that this process will raise the level of awareness about the choices and opportunities involved in planning for the future, to generate excitement and commitment to realistic goals for positive growth, and to establish new partnerships that will grow stronger over time.

In order to ensure that we understand and address the full spectrum of issues that should be considered throughout our planning process, we are reaching out to you, as well as other individuals who represent a wide variety of viewpoints. Your participation in this group would require attendance at one Focus Group Session to be held on **October 7, 3-5 pm at the Bedford Welcome Center, 816 Burks Hill Rd.**, with the hopes that you would also attend the three subsequent Public Workshops (first to be held in late fall, 2009). At this Focus Group Session, you will learn about the study process and have an opportunity to provide the project team with information and insights about relevant community issues, goals, and values.

Thank you very much for considering becoming a member of our Bedford Focus Group. For logistics purposes, we appreciate you RSVP by Monday, September 28th to Marjorie Gilley by either email (mgilley@region2000.org) or phone (434.845.5678 x 210). In the meantime, should you have any questions, please feel free to contact me at 434-845-3491.

Sincerely,

Robert E. White, Deputy Director
Virginia's Region 2000 Local Government Council

Marjorie Gilley

September 10, 2009

On behalf of the Central Virginia Metropolitan Planning Organization (CVMPO), I am pleased to invite you to participate in the Lynchburg City Focus Group for the development of the CVMPO region's Long-Range Transportation Plan 2035 Update.

Through a scenario planning/community visioning process, you and fellow group members will help shape a comprehensive vision for the region, which will include the transportation investment strategies needed to attain that vision. This process will also help build a collective understanding about the relationships between community design, regional growth patterns, and transportation investments. Moreover, we hope that this process will raise the level of awareness about the choices and opportunities involved in planning for the future, to generate excitement and commitment to realistic goals for positive growth, and to establish new partnerships that will grow stronger over time.

In order to ensure that we understand and address the full spectrum of issues that should be considered throughout our planning process, we are reaching out to you, as well as other individuals who represent a wide variety of viewpoints. Your participation in this group would require attendance at one Focus Group Session to be held on **October 8 from 10-12pm at 900 Church Street, 2nd floor training Room**, with the hopes that you would also attend the three subsequent Public Workshops (first to be held in late fall, 2009). At this Focus Group Session, you will learn about the study process and have an opportunity to provide the project team with information and insights about relevant community issues, goals, and values.

Thank you very much for considering becoming a member of our Lynchburg City Focus Group. For logistics purposes, we appreciate you RSVP by Monday, September 28th to Marjorie Gilley by either email (mgilley@region2000.org) or phone (434.845.5678 x 210). In the meantime, should you have any questions, please feel free to contact me at 434-845-3491.

Sincerely,

Robert E. White, Deputy Director
Virginia's Region 2000 Local Government Council

Francis Calhoun
Lynchburg, VA

Dear Ms. Calhoun,

On behalf of the Central Virginia Metropolitan Planning Organization (CVMPO), I am pleased to invite you to participate in the Lynchburg City Focus Group for the development of the CVMPO region's Long-Range Transportation Plan 2035 Update.

Through a scenario planning/community visioning process, you and fellow group members will help shape a comprehensive vision for the region, which will include the transportation investment strategies needed to attain that vision. This process will also help build a collective understanding about the relationships between community design, regional growth patterns, and transportation investments. Moreover, we hope that this process will raise the level of awareness about the choices and opportunities involved in planning for the future, to generate excitement and commitment to realistic goals for positive growth, and to establish new partnerships that will grow stronger over time.

In order to ensure that we understand and address the full spectrum of issues that should be considered throughout our planning process, we are reaching out to you, as well as other individuals who represent a wide variety of viewpoints. Your participation in this group would require attendance at one Focus Group Session to be held on **October 8 from 10-12pm at 900 Church Street, 2nd floor training Room**, with the hopes that you would also attend the three subsequent Public Workshops (first to be held in late fall, 2009). At this Focus Group Session, you will learn about the study process and have an opportunity to provide the project team with information and insights about relevant community issues, goals, and values.

Thank you very much for considering becoming a member of our Lynchburg City Focus Group. For logistics purposes, we appreciate you RSVP by Monday, September 28th to Marjorie Gilley by either email (mgilley@region2000.org) or phone (434.845.5678 x 210). In the meantime, should you have any questions, please feel free to contact me at 434-845-3491.

Sincerely,

Robert E. White, Deputy Director
Virginia's Region 2000 Local Government Council

September 10, 2009

Neil Bohnert
Lynchburg, VA

Dear Mr. Bohnert,

On behalf of the Central Virginia Metropolitan Planning Organization (CVMPO), I am pleased to invite you to participate in the Lynchburg City Focus Group for the development of the CVMPO region's Long-Range Transportation Plan 2035 Update.

Through a scenario planning/community visioning process, you and fellow group members will help shape a comprehensive vision for the region, which will include the transportation investment strategies needed to attain that vision. YOU'RE INVITED!

Plan2035: Central Virginia Long Range Transportation Plan

Community Workshop 1: How and Where Will We Grow?

Thursday November 12, 2009

Liberty University's North Campus, Room 1875

6:00 p.m. – 8:00 p.m.

What makes a place special? Why are we drawn to some shopping centers, streets, or neighborhoods, while others leave us cold? How can we shape our region's transportation network to ensure future generations will enjoy living, working, and playing here? **PLEASE JOIN US** in a community-wide discussion of these and other questions related to *Plan2035: The Central Virginia Long Range Transportation Plan*.

The meeting, scheduled for November 12 from 6:00 p.m. to 8:00 p.m. in room 1875 on Liberty University's North Campus is the first in a series of public meetings to be held over the coming year in order to shape the regional transportation plan. At this event, you and other area residents, businesses and officials will have an opportunity to learn about how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and informative dialogue, we will envision together what "quality of life" means to the people of our region, and we will brainstorm possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared ideals.

The ideas generated at this workshop will help the Central Virginia Metropolitan Planning Organization develop and test future scenarios that combine regional transportation improvements and land development patterns in ways that promote desirable, well-functioning neighborhoods throughout the region. At subsequent workshops to be held this winter and next year, we will ask you and fellow community members to help us evaluate the scenarios and come up with a vision, goals and priorities for Plan2035.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and perspectives we consider, the better the plan will be. If you have questions or comments, please contact Bob White, Deputy Director, Region 2000 Local Government Council, staff to the Central Virginia Metropolitan Planning Organization, by phone at 434.845.3491 or by email at bwhite@region2000.org. More information can also be found at www.cvlrtp2035.info.

victims killed or wounded as the bus drove across the country.

Investigators have closely linked them to some of these prelude shootings, though they have never stood trial for them. Others fall into a gray area — police have suspicions, perhaps, but no proof.

The question became even murkier in 2005, when Males reportedly confessed to four additional shootings, including two killings, that had not been linked to him.

If Males' reported crimes

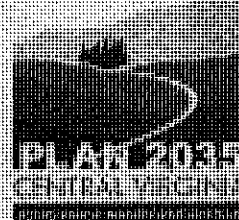

leading to some Taylor solved based on their interview with Males, which they obtained only after agreeing not to prosecute him.

The victim's daughter, Cheryl Witz, decided that knowing the truth was more important than seeing Males face criminal charges given the fact that he was already serving life in prison. At one point, Males even called Witz on the telephone and apologized.

Back in Texas though,

\$5 per spectator. Child Practice runs begin at 1 start around 2pm. About 1.5 miles down Rt. 26 km or 15.9 and across is about about rain delays or Roper at 434-610-6333

YOU'RE INVITED!

Plan2035 Central Virginia Long Range Transportation Plan

Community Workshop 1: How and Where Will You Grow?

Thursday November 11, 2010

Liberty University's North Campus, Room 1033

8:00 p.m. - 10:00 p.m.

What makes a place special? Why are we drawn to some shopping centers, streets or neighborhoods, while others leave us cold? How can we shape our regional transportation network to ensure future generations will enjoy living, working, and playing here? **PLEASE JOIN US** in a community-wide discussion of these and other questions related to Plan2035, The Central Virginia Long Range Transportation Plan.

The meeting, scheduled for November 11 from 8:00 p.m. to 10:00 p.m. in room 1033 on Liberty University's North Campus, is the first in a series of public meetings to be held over the coming year in order to shape the regional transportation plan. At this event, you and other area residents, business and officials will have an opportunity to learn about how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and information dialogues, we will explore together what "quality of life" means to the people of our region, and we will brainstorm possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared goals.

The ideas generated at this workshop will help the Central Virginia Metropolitan Planning Organization develop and test future scenarios that combine regional transportation improvements and land development patterns in ways that provide desirable, well-functioning neighborhoods throughout the region. At subsequent workshops to be held this winter and next year, we will ask you and fellow community members to help us evaluate the scenarios and come up with a vision, goals and priorities for Plan2035.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and participation we consider, the better the plan will be. If you have questions or comments, please contact Rick White, Deputy Director, Region 1000 Local Government Council, staff to the Central Virginia Metropolitan Planning Organization, by phone at 434-545-3494 or by email at rickwhite@plan2035.org. More information can also be found at www.plan2035.org.

COMMUNITY WORKSHOP RESCHEDULED

Plan2035: Central Virginia Long Range Transportation Plan

Community Workshop 2: Where Do We Want to Go?

Thursday March 4, 2010

City of Lynchburg, City Hall, Second Floor Training Room, 900 Church Street

6:00 p.m. to 8:00 p.m.

The workshop, rescheduled for March 4th from 6:00 p.m. to 8:00 p.m. at the Lynchburg, City Hall, Second Floor Training Room, 900 Church Street, is the second in a series of public meetings being conducted to shape the update to the Central Virginia Long Range Transportation Plan (Plan2035).

At the first event, themed *How and Where Will We Grow?*, a diverse group of resident and stakeholders had an opportunity to discuss how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and informative dialogue, we envisioned together what “quality of life” means to the people of our region, and we brainstormed possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared ideals. These ideas helped the MPO develop and test future scenarios that combine regional transportation improvements and land development patterns in ways that maximize mobility options while promoting desirable, well-functioning neighborhoods throughout the region.

At this second workshop, we will examine three alternative scenarios that explore how the future could change, for better or worse. We will present results of how the Trend (“Status Quo”) Scenario and Three Alternative Scenarios compared in relation to community value-based performance measures and how they tested in the Regional Transportation Demand Model. Based on a facilitated discussion with the attendees, we will choose a Preferred Scenario that will guide the Central Virginia Metropolitan Planning Organization in creating the vision, goals and priorities for Plan2035.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and perspectives we consider, the better the plan will be. If you have questions or comments, please contact Bob White, Deputy Director, Region 2000 Local Government Council, staff to the Central Virginia Metropolitan Planning Organization, by phone at 434.845.3491 or by email at bwhite@region2000.org. More information can also be found at www.cvlrtp2035.info.

COMMUNITY WORKSHOP RESCHEDULED
Plan2035: Central Virginia Long Range
Transportation Plan
Community Workshop 2: Where Do We
Want to Go?

Thursday March 4, 2010
City of Lynchburg, City Hall, Second Floor
Training Room, 900 Church Street
6:00 p.m. to 8:00 p.m.

The workshop, rescheduled for March 4th from 6:00 p.m. to 8:00 p.m. at the Lynchburg, City Hall, Second Floor Training Room, 900 Church Street, is the second in a series of public meetings being conducted to shape the update to the Central Virginia Long Range Transportation Plan (Plan2035).

At the first event, themed How and Where Will We Grow?, a diverse group of resident and stakeholders had an opportunity to discuss how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and informative dialogue, we envisioned together what "quality of life" means to the people of our region, and we brainstormed possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared ideals. These ideas helped the MPO develop and test future scenarios that combine regional transportation improvements and land development patterns in ways that maximize mobility options while promoting desirable, well-functioning neighborhoods throughout the region.

At this second workshop, we will examine three alternative scenarios that explore how the future could change, for better or worse. We will present results of how the Trend ("Status Quo") Scenario and Three Alternative Scenarios compared in relation to community value-based performance measures and how they tested in the Regional Transportation Demand Model. Based on a facilitated discussion with the attendees, we will choose a Preferred Scenario that will guide the Central Virginia Metropolitan Planning Organization in creating the vision, goals and priorities for Plan2035.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and perspectives we consider, the better the plan will be. If you have questions or comments, please contact Bob White, Deputy Director, Region 2000 Local Government Council, staff to the Central Virginia Metropolitan Planning Organization, by phone at 434.845.3491 or by email at bwhite@region2000.org. More information can also be found at www.cvlrtp2035.info.

YOU'RE INVITED!

Plan2035: Central Virginia Long Range Transportation Plan (LRTP)

Community Workshop 3: Discussion of draft LRTP, and how the region's future growth can unfold.

Wednesday June 2nd, 2010

Lynchburg City Hall, Second Floor Training Room

5:30 p.m. – 7:30 p.m.

The workshop, scheduled for June 2nd from 5:30 p.m. to 7:30 p.m. at the Second Floor Training room in the Lynchburg City Hall, is the third in a series of public meetings being conducted to shape the update to the region's long range transportation plan.

At the first event, themed *How and Where Will We Grow?*, a diverse group of residents and stakeholders had an opportunity to discuss how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and informative dialogue, we envisioned together what "quality of life" means to the people of our region, and we brainstormed possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared views. These views helped the MPO develop and test three possible future scenarios that combine regional transportation improvements and land development patterns in ways that maximize mobility options while promoting desirable, well-functioning neighborhoods throughout the region. At the second workshop, themed *Where do we want to go?*, the three possible future scenarios were evaluated and an alternative scenario to the current trend for growth and mobility was identified.

In this upcoming third and final workshop, a comparison of the trend scenario and the alternative growth scenario will be presented and discussed. Also, the project funding projections, and resulting draft constrained and un-constrained project listings will be presented, and participants will discuss *How to consider the region's alternative growth scenario*.

Upon completion of this final workshop, the draft long range transportation plan will be finalized and a final public hearing and presentation to the MPO Policy Board will be held in July.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and perspectives we consider, the better the plan will be. If you have questions or comments, please contact Bob White, Deputy Director, Region 2000 Local Government Council, staff to the Central Virginia Metropolitan Planning Organization, by phone at 434.845.3491 or by email at bwhite@region2000.org. More information can also be found at www.cvlrtp2035.info.

N.Korea cuts ties with South

FROM WIRE REPORTS

SEOUL, South Korea — Relations on the divided Korean peninsula plunged to their lowest point in a decade Tuesday when the North declared it was cutting all ties to Seoul as punishment for blaming the communists for the sinking of a South Korean warship.

The announcement came a day after South Korea took steps that were seen as among the strongest it could take short of military action.

Jamaica police: 30 dead in drug battle

KINGSTON, Jamaica — Jamaican police say at least 26 civilians and four members of the security forces have died as police and soldiers battle defenders of a powerful Jamaican gang leader sought by the U.S.

Thousands of heavily armed forces are raiding the capital's most violent downtown slums in a hunt for underworld boss Christopher Coke, known as "Dudus."

Police spokesman Corporal Richard Minott tells The Associated Press on Tuesday that the fighting in West Kingston alone has led to 26 civilian deaths and one of a security official. Police had reported that earlier fighting killed two officers and a soldier.

Baghdad gold heist ends in 15 dead

BAGHDAD — Gunmen wearing Arab headscarves and wielding assault rifles, rocket-propelled grenade launchers and pistols robbed a gold jewelry market in broad daylight Tuesday, killing 15 people in the most brazen example of Baghdad

Efforts to control blood press

THE ASSOCIATED PRESS

CHICAGO— Half of the 70 million Americans with high blood pressure are keeping it under control by taking medication, meeting a government goal set a decade ago and reducing their risk of life-threatening health problems, a study suggests.

Almost one in three adults has high blood pressure. In 1988, only about 27 percent of them kept it under control. By 2007-08, that number had climbed to 50 percent, according to the study in Wednesday's

Journal of the American Medical Association.

The findings "should be cause for celebration," although more work needs to be done, said Dr. Aram Chobanian of Boston University, who was not involved in the study.

Millions of Americans still have uncontrolled high blood pressure, which can raise a person's risk of heart attack, stroke and kidney failure. And the prevalence of the disease is increasing.

Many people require more than one drug to reduce blood pressure. For some, cost and lack of

access to physicians is also an issue.

The new analysis compared several government health surveys since 1988. About 10 years ago, the government set goals for preventing high blood pressure and reducing the number of people who have it but are unable to control it.

The first goal — to reduce the number of peo-

ple with high blood pressure — fell short, as preliminary report in December. Blood pressure increased to almost 30 percent in 2007-08. The analysis shows the goal, controlling hypertension, was achieved. "We're doing better at treating, but improving it

YOU'RE INVITED! Plan2035: Central Virginia Long Range Transportation Plan (LRTP)

Community Workshop 3: Discussion of draft LRTP, and how the region's future growth can unfold.

Wednesday June 2nd, 2010
Lynchburg City Hall, Second Floor Training Room
900 Church Street
5:30 p.m. - 7:30 p.m.

The workshop, scheduled for June 2nd from 5:30 p.m. to 7:30 p.m. at the Second Floor Training room in the Lynchburg City Hall, is the third in a series of public meetings being conducted to shape the update to the Central Virginia Metropolitan Planning Organization's (MPO) long range transportation plan.

At the first event, themed *How and Where Will We Grow?*, a diverse group of residents and stakeholders had an opportunity to discuss how transportation investments can make the difference between a delightful place and a dismal one. Through hands-on exercises and informative dialogue, we envisioned together what "quality of life" means to the people of our region, and we brainstormed possibilities for coordinating future development with mobility and accessibility investments in order to achieve our shared views. These views helped the MPO develop and test three possible future scenarios that combine regional transportation improvements and land development patterns in ways that maximize mobility options while promoting desirable, well-functioning neighborhoods throughout the region. At the second workshop, themed *Where do we want to go?*, the three possible future scenarios were evaluated and an alternative scenario to the current trend for growth and mobility was identified.

In this upcoming third and final workshop, a comparison of the trend scenario and the alternative growth scenario will be presented and discussed. Also, the project funding projections, and resulting draft constrained and un-constrained project listings will be presented, and participants will discuss *How to consider the region's alternative growth scenario*.

Upon completion of this final workshop, the draft long range transportation plan will be finalized and presented to the MPO Policy Board for consideration.

ALL ARE WELCOME! Please share this invitation with your colleagues, friends and neighbors. The more ideas and perspectives we consider, the better the plan will be. If you have questions or comments, please contact Bob White, Deputy Director, Region 2000 Local Government Council, staff of the Central Virginia Metropolitan Planning Organization, by phone at 434.845.3491 or by email at bwhite@region2000.org. Dear Kathy,

How lucky were we to find you! You knew so much about where to look for a house and which ones were a good value. You knew all about the schools and the neighborhoods. Thank you very much for helping us be so comfortable in our new house and this new city. We are very grateful for your advice and friendship.

Fondly,
Tanya and Ben

Opportunity to Comment and Public Hearing
The Central Virginia Metropolitan Planning Organization announces the opportunity to comment and attend a public hearing for the adoption of the Central Virginia Long Range Transportation Plan Year 2035.
Copies of the Central Virginia Long Range Transportation Plan Year 2035 are available for review at the Virginia's Region 2000 Local Government Council office, 828 Main Street, 12th Floor, Lynchburg, VA 24504 or on the Council's website at <http://www.cvlrtp2005.info/Plan2035Draft.pdf>.
Comments on the Central Virginia Long Range Transportation Plan Year 2035 will be received until October 21st at 4:00 p.m. Comments may be submitted to the Virginia's Region 2000 Local Government Council, c/o Bob White, Deputy Director, at the Local Government Council office address provided above, or at 434-845-3491, fax to 434-845-3493, or by email to mdunn@region2000.org.
A public hearing regarding the Central Virginia Long Range Transportation Plan Year 2035 is scheduled for Thursday, October 21, 2010 at 4:00 p.m. The public hearing will be held at the Holiday Inn Select, 601 Main Street, Lynchburg.
