

Welcome

Project Description

This corridor study assessed operational and safety improvements for segments of the Route 221 (Forest Road) corridor in Bedford County, Virginia. Route 221 serves as an east-west major arterial roadway connecting the residential areas to commercial areas and employment centers. This corridor has been identified to have safety and operational issues during peak periods. The study is focused on three areas within the Route 221 corridor:

- Perrowville Road to Thomas Jefferson Road (Route 811)
- Ambassador Road to Cloverhill Boulevard
- Enterprise Drive to Graves Mill Road

Purpose of Meeting

The goal of this meeting is to receive input on potential improvement concepts that address traffic congestion, safety, and multimodal access throughout the corridor.

Study Area

Forest Rd intersection with Enterprise Dr
